

21st July 2020

Dear families

Student Outcomes

In the coming academic year, Dysart School will be adapting how we shape our students outcomes. Currently our students have personalised EHCP outcomes which are set at your child's Annual Review meeting as well as termly Curriculum outcomes which are set at parents' meetings.

We have made the decision to develop our students' ability to learn holistically across the whole breadth of their personalised Rainbow Curriculum by adapting their EHCP outcomes further to make sure they have every opportunity to succeed.

Therefore curriculum outcomes are changing. They will be now directly linked to your child's EHCP outcomes; they will be broken down 'small step' termly outcomes of students' current outcomes.

The aim of this change is to better support your child's ability to achieve these annual outcomes by scaffolding their learning skill by skill.

These will be taught through our teaching staff using the vast breadth of the Rainbow Curriculum.

During the Autumn Term a parents meeting will be scheduled to share and discuss students' curriculum outcomes for the coming term. Any further questions will be answered at this meeting.

We are always working on our Curriculum to ensure it meets the individual needs of all our children so we hope you will see the benefit of this over the coming year and longer term.

Yours sincerely

Leigh Edser
Principal
